

## GRAND JURY GETS EVIDENCE OF FRAUD IN G. O. P. PRIMARY

Swann Submits Ballots and Tally Sheets From Six Election Districts.

District Attorney Swann and Assistant District Attorney O'Connell and Wallace submitted to the Grand Jury today the Republican ballots and the tally sheets of the primary in the Twenty-eighth Election District, the Eighteenth Assembly District, the Fourth, Fifth and Twenty-ninth Election Districts of the Seventeenth Assembly District, the Fifteenth Election District of the Sixteenth Assembly District and the Thirty-first Election District of the Fourteenth Assembly District.

In submitting the ballots and tally sheets the District Attorney announced to the Grand Jury that, in his judgment, they furnished documentary evidence of fraud.

If the Grand Jury sustains the contention of the District Attorney that frauds were committed in these districts, the four election inspectors in each district—two Democrats and two Republicans—will be indicted. Although the Democratic inspectors declare they did not count or handle the Republican ballots, the law provides that the entire board shall canvass the primary vote of both parties in cities of more than 400,000 population, and if the Democrats, following the custom which prevailed in the days when each party held its own primary, allowed the Republicans to count the Republican ballots they will probably have to make explanations to a jury.

The first case presented to the Grand Jury for consideration was that of the Fifth Election District of the Seventeenth Assembly District. The returns from this district made to the Board of Elections on the night of the primary showed that Bennett had received 5 votes and Mitchell 42.

The recount established that 24 votes had been cast for Bennett and only 20 for Mitchell. The inspectors in this district, if the evidence is not faulty, counted three more ballots than were put in the box, gave Mitchell 22 more votes than he got and credited Bennett with 19 votes less than were cast for him.

In the Seventh Election District of the Eighteenth Assembly District there is shown, on the face of the ballots and tally slips, a discrepancy of thirty-four votes. The Fifteenth Election District of the Sixteenth Assembly District shows a wrong count involving thirty-seven ballots. The others are nearly as bad.

There was no oral evidence introduced before the Grand Jury in the cases submitted today. The ballots and the tally sheets told their own story. It is simply a question of fact and, in case indictments are returned, the indicted election officials will have to make plain to a jury how they happened to count ballots that were not cast and how they credited ballots cast for one candidate to another.

The District Attorney's office is busy engaged in working on ballots showing erasures or other markings which should have invalidated them to the count. These will be presented to the Grand Jury as soon as the election districts which returned false totals are out of the way.

### ECONOMICAL SUGGESTIONS IN RUGS & LINOLEUMS

Seamless Hand-Made Jute Rugs From Japan

Some months ago we placed a large order, through our foreign department, for hand-made Jute rugs, to be made up in special patterns and colorings. The rugs have now arrived, and we believe we have the largest stock of them in New York City. There are Chinese designs in blue, tan, and rose grounds, Oriental medallions, in gold, brown, red, rose and blue, and small all over effects that were copied from high-class Axminster and Wilton Rug designs. These rugs are made of a good grade of jute yarn; the colorings are attractive; they are seamless and woven by hand.
